EBARA Technologies Builds on 2006 Success for 3rd Party Services

EBARA Technologies, Inc. (ETI) continues to expand its 3rd party vacuum pump remanufacturing and site services in 2006, meeting and exceeding our customer expectations as a single supplier solution. Looking forward towards 2007, ETI will continually focus on improving & expanding our services while distinguishing ourselves from our competition by:

- Major facility upgrades and investments
- Significant dedicated Engineering resources
- ISO9001:2000 certification through 2009
- 24/7 800 Service Support Line
- Site service support (vacuum, abatement, chillers, heater design & installation, logistic mgt, etc.)
- Ebara & non-Ebara pump upgrade programs
- Extensive part cleaning capability (graphite, ceramic, vacuum components)
- Aggressive pricing with volume discounting
- Standard 12-month warranty

When you work with ETI towards supporting your non-Ebara products you can be assured that quality and dedication to satisfaction will not change. Ebara service has a proven track record that can save your company time and money through our rebuild, applications review and support programs. To make sure that your company is optimizing each and every Vacuum and Abatement system contact ETI for a site visit.

300mm proven, EBARA has one of the largest service and support organizations in the industry.

EBARA Technologies Inc. Migrates Away From "A" Series Dry Vacuum Pump Line Starting January 1, 2007

ETI will stop accepting orders for standard A Series Dry Vacuum Pumps January 1, 2007. The availability of certain electrical components and the migration to EBARA's industry proven VOS, ESR, ESA and EST Series pumps have facilitated the decision to stop offering the standard A Series pump models. Ebara will continue to offer the A25S & A70W Dry Vacuum pumps as converted ESA models based on updating the electrical control panels to new standards. For review of your current models and or presentation on new Ebara dry vacuum pump benefits please contact your local ETI sales person.

Ebara Technologies will still offer refurbished A Series models for our customers. If you would like more information please contact EBARA at www.ebaratech.com.
